INFO

Tokyo cosmonauts is one of the latest sounds to come from Paris' music scene. Behind the anonymous tag of tokyo cosmonauts, it's Arnaud Leroy. His approach comes more from the background of a musician than that of a DJ. The taste in exotica, 60's american soft rock, 60's french pop, B-movies, video games and moog records speaks loud and clear. Tokyo Cosmonauts is the plaything of French wunderkind Arnaud Leroy. As a voracious consumer of pop culture, Arnaud grabs bits from soundtracks, '60s variety and old commercials, then filters them through modern club culture.

"Penjab sur le dancefloor", Tokyo Cosmonauts' second 12", multiplies the dance-club influences of its predecessor. It's a bright, bubbly pop confection that reconfigures classic pop and cocktail lounge idioms. Featuring a special remix from MartiniBomb (USA), "Penjab sur le dancefloor" is an enjoyable, eclectic effort that fans of sophisticated modern music are sure to adore. And behave, only 500 red copies !!!
